

Your Gold Beach Chamber of Commerce Executive Director,
that's me 😊, is heading to the

Oregon State Chamber of Commerce Conference

This is a fantastic opportunity for me to capture new ideas, refresh current actions and most importantly network and learn from a broad range of fellow chamber of commerce directors and their staff. Currently the conference has in their 2011 conference registrar over 60 chamber of commerce professionals attending. Some of the material presented at this year's conference include: Improving Management & Leadership Skills, Chambers and Economic Development, Revving Revenue in Today's Economy, How to Build a Great Chamber, 20 Ideas You Can Steal Today and much more. I look forward to attending and can't wait to report back to you and begin implementing new discoveries that will benefit your business club and our community.

There is also an opportunity for you ~ the OSCC is encouraging the attendees to bring baskets with products and service offers from their membership to include in the raffle drawn at the end of the conference. The proceeds of the raffle goes towards scholarships offered to those who are unable to afford the conference fee due to their chamber budget. I am one of only a few scholarships that were offered for this year's conference. Bring visibility to your business and funds to support future scholarship awardees the opportunity to improve and work hard for their members.

Please email your interest to participate **no later** than tomorrow,
Tuesday, October 26 at 3pm to director@goldbeachchamber.com
