

THE ORPHANAGE

Adopt a Movie Program

The Orphanage is about community. Whether we are helping the community or supporting it. From donations to the school system, the different organizations, and many functions, to our children having a safe place to hang out and learn new things. Including how to socialize and giving families more option on how to spend their day or the rest of their evening. As much as we have a business relationship with our customers, we also want each and every one of our customers to feel at home. As a part of the community we would like to see The Orphanage grow into the best place it can be, and we need your help to do so. As a sponsor we would like you to be a part of these traditions we are starting to build. In order to do so, The Orphanage is asking that you join the Adopt a Movie program. We are offering benefits such as a free lifetime Business membership with up to five employee cards and free website advertisement with links to your business page.
